

READ BEFORE INSTALLATION

IN THE RARE CASE THE HOMELINK SYSTEM DOES NOT PROGRAM WITH YOUR SECURITY+2.0 GARAGE DOOR OPENER, INSTALL A REPEATER KIT. REFER TO THE HomeLink COMPATIBILITY INSTRUCTIONS BELOW:

PLEASE KEEP THIS INFORMATION WITH YOUR USER MANUAL

HomeLink is the in-vehicle system, made by Johnson Controls. It is identified by **one red LED** on the panel or mirror. HomeLink design may vary slightly per vehicle.

WHEN TO INSTALL A REPEATER KIT:

All 2006 & Older vehicles require a repeater kit installation which must be purchased by the homeowner.

All 2007 and Newer vehicles – Perform regular HomeLink installation per vehicle instructions. If after a complete attempt at installation the HomeLink does not program with opener, install a repeater.

(To program the HomeLink repeater kit, refer to the instructions provided in the kit or visit:

<http://www.homelink.com/program>

Repeater Kit

INSTALLATION QUICK FACTS:

1. Install ONE repeater per HOME
2. Use different HomeLink buttons in vehicle if programming multiple cars, button 1 first car, button 2 second car... etc.
3. HomeLink remote is NOT a garage door opener

If you have the Battery Back-up Feature Information

If you are using this Repeater with a garage door opener that has a Battery Backup system, ensure your original garage door opener remote control is programmed to the garage door opener and place it in your glove box for use in the event of a power outage.

The remote included in this Repeater Kit MUST be kept for future programming (new vehicle, new garage door opener etc).
